

Recovering feedrolls.

BEFORE

AFTER

Kamadur Industrial Knives B.V. now offers recovering of feedrolls for strand pelletizers. Worn out or damaged rubber is removed and new Perbunan® (PER), Polyurethan (PUR) or your specific compound cover added. Hardness from Shore 55 for brittle polymers up to Shore 80 for compounds is available.

Contact us about your requirements on knives@kamadur.com or +31 88 52 62 300
