ROWALID®-CC
Polymer specific color masterbatches

THE RIGHT TONE
With ROWALID®-CC, ROWA Masterbatch brings color into play and always hits the right tone. There are various options available for the color settings:

» Pantone  » HKS
» RAL  » NCS
» CIELAB  » according to a design template/customer requirements

The portfolio includes opaque, translucent, and transparent colorants, and particularly special effects such as metallic, pearlescent or glitter.

CUSTOMIZED
There is nothing off-the-shelf at ROWA Masterbatch. It is possible to find solutions for almost every thermoplastic resin. The advantages of polymer specific masterbatches are:

» optimum design of the technical properties
» no incompatibilities
» high resistances

The colorants are selected to match the application, such as

» Automotive  » Electronics
» Construction  » Consumer

Special requirements and conformities, e.g. food contact, use in toys, etc., can be taken into account individually.

OPTIMALLY IMPLEMENTED
ROWALID®-CC Masterbatches are optimized for the intended processing method, e.g.:

» Extrusion  » Compounding
» Injection molding  » Film extrusion
